VERSION 12

**WINDOWS XP, VISTA AND SERVER 2003
AND PCSCALE ARE NO LONGER SUPPORTED!**

EVERY machine on your network must switch to the new version.
You cannot have 1 machine on 11 and another on 12 if they are connected to the same database.

NOTE: V12 Extension currently does not have Auto Cherry Pick, Add Items, or Swap Material.
These will be included in future upgrades.

Please list all your keys

1. **Key #'s: Please note if the serial number starts with an E if it is a USB key or Serial Key.**

i.e. U1234					

2. A hardware update on all McCormick Keys will need to be completed.
3. To receive this upgrade, please select from the options below and fax back this form.
Upgrades will be processed in the order they are received.

- CD via regular mail (You will be billed \$35.00 for CD Replication and shipping.)
CD will be mailed via USPS with instructions.
 Download from our website (Instructions for download and install will be faxed or emailed.)

To have the instructions emailed, fill in your email address here:

_____ I understand that I will be billed \$35.00 for the upgrade if the CD is sent by mail.
