

McCormick Hosted FAQ

What is McCormick Hosted?

McCormick Hosted is the cloud-based version of McCormick estimating software.

What's different about McCormick Hosted?

Your database is stored on McCormick's secure servers and is accessible on any device, from anywhere with internet.

Does McCormick Hosted require any additional equipment?

No! McCormick Hosted does not require any hardware or physical equipment – everything you need to make the most of McCormick Hosted can be accessed remotely!

What services are included with McCormick Hosted?

McCormick Hosted offers many benefits, including automatic updates and no yearly support cost. [For the full list of included services, please see the *On-Premise vs. Hosted comparison chart*.](#)

What does McCormick Hosted look like?

McCormick Hosted looks the same as the on-premise software you already know and trust. No additional training is needed.

How do I access my database on McCormick Hosted?

McCormick Hosted can be accessed via a remote app that is included with purchase. This app will guide you to the login.

How are updates handled in McCormick Hosted?

- McCormick's IT team handles all updates for you.
- Updates occur during your off-hours, eliminating downtime.
- We give you advanced notice, so you'll know when updates are coming.

I like how my McCormick works now.

Will I lose any functionality?

Nope! McCormick Hosted has the same exact interface, workflow and functionality you already use.

Is there an implementation fee for migrating to McCormick Hosted?

Nope! Implementation comes free when you switch to McCormick Hosted.

How long will migrating to McCormick Hosted take?

About 75% of migrations are done within two to four hours. Clients with multiple or larger databases can take longer, but don't worry! We'll help you schedule your migration so you don't miss a single bid.

What are the technical requirements for migrating to McCormick Hosted?

For more information on migrating to McCormick Hosted, please reference [the *McCormick Hosted Requirements Sheet*](#).

Will I need to have an IT person from our company involved in migrating to McCormick Hosted?

Outside IT isn't needed. All we need is access to your SQL Server.

How secure is my data with McCormick Hosted?

McCormick Hosted meets most Tier 4 specifications. All sensitive data is encrypted with enterprise-grade firewalls and switches.

How does McCormick Hosted handle backups?

We back up your data to our servers every 15 minutes. Each night, an additional full backup is performed and the data is sent to a secure, off-site location.

Do I have to pay an annual maintenance fee under McCormick Hosted?

No, there is no annual maintenance fee with McCormick Hosted. If you are in the middle of maintenance – or just paid for maintenance – we will prorate your costs and you will receive a credit for the remaining balance on your account. This credit can be put toward your annual subscription fees.
